BLEDAR HAXHIA

FULL STACK WEB DEVELOPER

ABOUT ME

As a very passionate web developer, I put my hands in typing codes of and designing different assets since the age of 16. Today, I have my own job and proud of it at [InternetPeople GmbH](#) where I develop different purpose websites powered by Typo3 and Wordpress. And I do start it from scratch, mostly working alone or in teams. Yet, designing tools remain my best friends: Photoshop, Illustrator, InDesign, After Effects and Premier Pro - we spend most of the time together and we know each-other close.
